

client
Arthur Phillip Chambers

industry
Legal

location
9 George Street,
Parramatta

value
\$500,000.00

size
800 m2

project
Internal commercial office fit
out for a group of barristers.

construction features
Due to the confidential nature
of their business, high levels
of sound proofing between
offices was required, this
involved CSR sound proofing
design to meet the criteria.
As each barrister is
essentially a separate entity,
purpose made joinery was
installed to all chambers, all
in different styles and
finishes.

project outline
CBD Projects were engaged
as nominated Head
Contractors on behalf of a
designer, CBD have carried
out several contracts for
these Chambers and also for
the Designer involved.
The Barristers had a tight
time frame to move from the
existing tenancy, due to the
sale of their building, we
therefore started the building
process prior to all design
being finalised, we worked
with the designer and client
to ensure this fast track
project was completed on
time and more importantly on
budget.
