3 weeks

project
Internal fit out the move of the client from one floor to their new floor.

construction features
Re use of existing high quality joinery. Reception area had new timber flooring laid along with new gyprock feature ceilings with feature lights.

project outline
CBD Projects were engaged as Head Contractors to carry this work out on behalf of a design practice, the brief was to dismantle the majority of an existing fit out, build new offices, meeting rooms and reception and then integrate the existing joinery from the previous tenancy into the new areas, plus complementing it with new joinery to match. New carpets, services and finishes were also included in this fast track high quality fit out.
